# Data Collection and Preprocessing Phase

| Date | 15 March 2024 |
|---|---|
| Team ID | 738305 |
| Project Title | Machine Learning Approach For Employee Performance Prediction |
| Maximum Marks | 2 Marks |

**Data Quality Report Template**

This dataset captures employee performance metrics derived from their previous work experiences across various industries and roles. It includes attributes such as tenure, performance ratings, productivity metrics, and feedback from supervisors.

| Data Source | Data Quality Issue | Severity | Resolution Plan |
|---|---|---|---|
| Kaggle Dataset | No issue with the data quality | Moderate | No Resolution Plan needed |
